

Proposed Coalition for Research in Librray, Archive and Information Science

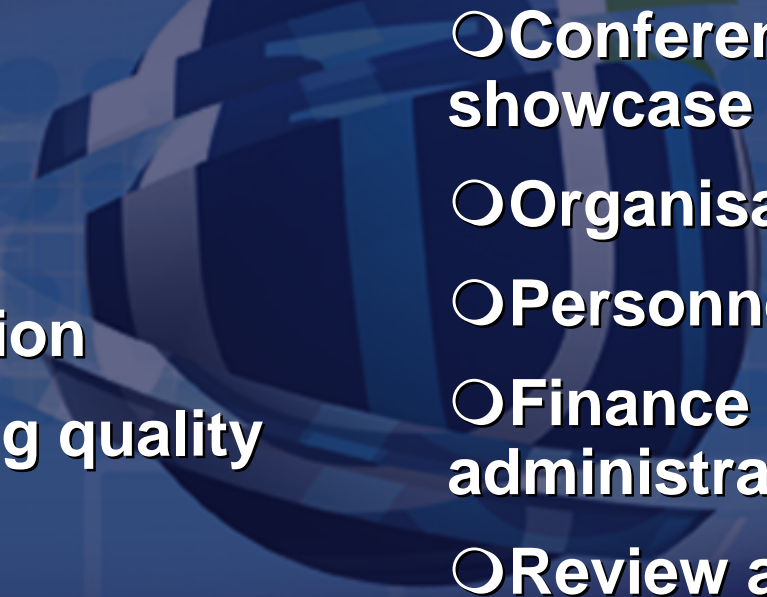

Roadmap and Finance

Nigel Macartney

Major activities recommended by 2006 Workshop

- a Manifesto setting out aspirations, objectives demonstrating links between existing research, strategic and government agendas but also set out its own agenda.
- A roadmap to show how it will achieve its objectives
- A 'Cream of Information Science' showcase of best practice and the facilitation of existing research information exchange.
- Consulting on and finalising the national research agenda.

Roadmap – action lines

- 
- Strategy
 - Manifesto
 - Services
 - Dissemination
 - Encouraging quality
 - Advocacy
 - Conference and showcase
 - Organisation
 - Personnel
 - Finance and administration
 - Review and evaluation

Priority action - today

- **Establish Steering Group to manage initial programme**
- **It is suggested that the Steering Group includes representatives of the major stakeholders and 2 representatives of the associate stakeholders**

Finance

- Model illustrates how the work could be funded
- Assumes major stakeholders (automatic seat on Board) contribute £9,500 pa
- Associate stakeholders subscribe £1,000
- Some activity could be funded by applying to funders (e.g. AHRC Research workshop Programme)

Issues

- **Is the Roadmap a good enough guide for the Steering Group? Is there anything missing or to be added?**
- **Do you agree with the financial model? If not, where should be changed?**
- **Are you content to nominate the Steering Group today?**
- **Will you empower the Steering Group to implement the 2008 actions in the Roadmap and, if required, request the proposed subscriptions?**
